

# FOR A BREAK FROM EVERYDAY LIFE

*The SDL Atrium plus glass canopy*

## INDIVIDUAL SOLUTIONS FOR YOUR INDIVIDUAL NEEDS - GLASS CANOPIES BY SOLARLUX

TAKE A LOOK THROUGH THE FOLLOWING PAGES TO VIEW SOME OF THE SDL ATRIUM PLUS PROJECTS WE'VE ALREADY COMPLETED AND SEE THE RESULTS FOR YOURSELF →

Glass canopies - and glass houses in particular - are a durable, weatherproof way of getting more out of your patio, even if it's windy or raining. And even during spring and autumn when the weather is less predictable, a canopy tailored to your needs will allow you to enjoy your patio at any time of year.

But what's the difference between a simple glass canopy and all-round shelter from the elements in the form of a glass house? A glass canopy provides a good place to shelter under on rainy days. If you add vertical, sliding glass elements to it, you can transform it into a glass house. Every single one of our canopies is tailor-made and tweaked to perfection, right down to the tiniest detail. On top of this, all the components are designed to work in perfect harmony with one another and be combined in any way possible. What's more, glass canopies and glass houses are a sure-fire way of increasing your property's value.

Thanks to the wide range of canopy shapes, colours and materials we offer, your Solarlux glass canopy will complement your existing garden and facade concept perfectly. Our range of glass canopy products are rounded off with a comprehensive selection of accessories, such as made-to-measure shading.

FAVOURITE SPOT BY THE LAKE

**PROJECT**  
Detached house |  
Schleswig-Holstein, Germany

## A PATIO WHERE SUMMER'S GUARANTEED

### PROJECT

Detached house | Rheine, Germany

“*Holiday relaxation, every day.*”

“Thanks to the canopy, our patio has now finally become a cosy spot that the whole family can use every day. We have breakfast and lunch here, the kids study, or we all just chill out on the loungers. We particularly enjoy relaxing here together after a long day of work and school. The ambience in the evenings is just incredible – when the glass house is illuminated and the coloured fountains are bubbling away it creates a truly special atmosphere. It’s turned the end of every day into a mini-break for us to recharge our batteries – just in our own garden.”

## A HOME IN HARMONY WITH NATURE

### PROJECT

Detached house | Rheda-Wiedenbrück, Germany

## A DAILY SLICE OF HOLIDAY

**PROJECT**  
Detached house | Melle, Germany

*“We barely used our patio before. There was always a draught coming from somewhere, or it was cold or raining. We really love winding down here at the end of the day. Being able to look over our garden helps us relax after work and recover our energy for tomorrow.”*

THE MEINERT FAMILY

## WIDE OPENING, UNOBSTRUCTED VIEW

### PROJECT

Detached house | Bissendorf, Germany

*“We never thought we’d be able to find a glass house that fits in so perfectly with our home. It’s almost like it’s always been there.”*

THE MEINKER FAMILY

## TECHNOLOGY, DESIGN AND FUNCTIONALITY

*The technical data at a glance*

### SDL ATRIUM PLUS

- Roof pitch: 5° to 45°
- Suitable for very large canopy and roof areas
- Available in almost any shape
- Side roof overhang optional

## I WANT A GLASS CANOPY. WHAT NOW?

### *Tips to help you make your decision*

The market is flooded with different manufacturers and providers of customisable solutions for covering your home patio. But which factors are really important when it comes to making your purchase?

- Always look for the CE mark! This shows that the provider offers compliance with DIN EN 1090, which has been mandatory for all manufacturers of steel and aluminium supporting structures since 2014.
- Ask to see the manufacturer's or provider's certificates and seals of quality.
- The guarantees made by the product must at least meet the minimum statutory requirements.
- Choose a provider who offers a range of materials and designs.
- Make sure that the provider is capable of installing your system professionally before you buy.

## INDIVIDUAL GLASS CANOPIES

*The right solution, whatever your requirements*

In addition to the SDL Atrium plus, we also offer a number of other systems you could use to create the glass canopy of your dreams. For example, our SDL Acubis glass canopy comes with an ultra-modern, cubic design.

Alternatively, lovers of natural materials may find that the SDL Aura is their perfect solution. The SDL Alerio is another option, with a flat roof and slender sight lines for those who expect the very best in terms of design. Dive in and let us inspire you!
